

Alex Rivera

Junior Security Analyst

alex.rivera@email.com | (555) 678-9012 | linkedin.com/in/alexrivera

SUMMARY

Detail-oriented Junior Security Analyst with strong foundation in cybersecurity principles, threat detection, and incident response. Eager to apply analytical skills to protect organizational assets and information systems.

SKILLS

Security Information and Event Management (SIEM) | Log Analysis | Network Security | Vulnerability Assessment | Security Tools (Wireshark, Nmap) | Windows/Linux Security | Basic Threat Detection | Security Documentation

PROFESSIONAL EXPERIENCE

Security Analyst Intern - CyberDefense Solutions

May 2023 - Present

- Monitored security alerts and escalated potential incidents to senior analysts
- Analyzed network traffic for suspicious activities using Wireshark
- Assisted in vulnerability scanning and documentation of findings
- Participated in security awareness training for employees

IT Support Specialist - Tech Systems LLC

Jan 2022 - Apr 2023

- Implemented basic security measures for client systems
- Performed regular system updates and patch management
- Assisted users with security best practices
- Documented technical procedures and troubleshooting steps

EDUCATION

Bachelor of Science in Cybersecurity

State Technical University, 2019 - 2023

Relevant coursework: Network Security, Digital Forensics, Ethical Hacking, Security Operations

Cybersecurity Bootcamp

Security Academy, 2022

12-week intensive program focusing on practical security skills

CERTIFICATIONS

- CompTIA Security+
- CompTIA Network+
- SANS SEC275: Foundations - Computers, Technology & Security

PROJECTS

Security Monitoring Lab

Built personal security lab with SIEM implementation for practicing threat detection

Vulnerability Assessment Project

Conducted vulnerability assessment of test network and documented findings

Network Traffic Analysis

Analyzed network traffic patterns to identify potential security threats
