Avery Martinez

Entry-Level SOC Analyst

avery.martinez@email.com | (555) 789-0123 | linkedin.com/in/averymartinez

SUMMARY

Detail-oriented cybersecurity professional with foundational knowledge in security operations, threat detection, and incident response. Eager to apply analytical skills and security fundamentals in an entry-level SOC Analyst role.

SKILLS

Security Information and Event Management (SIEM) | Log Analysis | Network Security | Vulnerability Assessment | Basic Threat Hunting | Windows/Linux Security | Security Tools (Wireshark, Nmap) | Incident Documentation

PROFESSIONAL EXPERIENCE

Cybersecurity Intern - SecureDefense Inc.

May 2023 - Present
- Monitored SIEM alerts and escalated potential security incidents
- Assisted in analyzing network traffic for suspicious activities using Wireshark
- Participated in vulnerability scanning and helped document findings
- Contributed to incident response procedures and documentation

IT Support Specialist - Tech Solutions LLC

Jan 2022 - Apr 2023
- Implemented basic security measures for client systems
- Performed regular system updates and patch management
- Assisted users with security best practices and awareness
- Documented technical procedures and troubleshooting steps

EDUCATION

Bachelor of Science in Cybersecurity

State University, 2019 - 2023
Relevant coursework: Network Security, Digital Forensics, Ethical Hacking, Security Operations

CERTIFICATIONS

- CompTIA Security+
- CompTIA Network+
- SANS SEC275: Foundations - Computers, Technology & Security

PROJECTS

Home Security Lab
Built personal security lab with SIEM implementation for practicing threat detection

Network Traffic Analysis Project
Analyzed network traffic patterns to identify potential security threats
