PROFESSIONAL SUMMARY

Entry-level DevOps Engineer with hands-on experience in CI/CD pipelines, containerization, and cloud infrastructure. Passionate about automation and implementing DevOps best practices to improve software delivery processes. Seeking to leverage technical skills and collaborative approach to contribute to a dynamic engineering team.

TECHNICAL SKILLS

- CI/CD: Jenkins, GitLab CI, GitHub Actions
- Containerization: Docker, Kubernetes basics
- Cloud Platforms: AWS (EC2, S3, RDS), Azure fundamentals
- Infrastructure as Code: Terraform, CloudFormation
- Scripting: Bash, Python
- Monitoring: Prometheus, Grafana, ELK Stack
- Version Control: Git, GitHub

EXPERIENCE

DevOps Intern

TechSolutions Inc., San Francisco, CA | June 2023 - December 2023

- Assisted in implementing CI/CD pipelines using Jenkins, reducing deployment time by 30%
- Containerized three legacy applications using Docker, improving deployment consistency
- Collaborated with development teams to automate testing processes
- Created monitoring dashboards with Grafana to track application performance
- Participated in on-call rotations, troubleshooting and resolving production issues

IT Support Specialist

University Tech Department | January 2022 - May 2023

- Managed and maintained university lab environments for 200+ students
- Automated routine maintenance tasks using Python scripts, saving 5 hours weekly
- Implemented version control for configuration files using Git
- Provided technical support for faculty and students

PROJECTS

Automated Infrastructure Deployment

github.com/johndoe/terraform-aws-project

- Developed Terraform modules to provision AWS infrastructure including VPC, EC2, and RDS
- Implemented infrastructure testing using Terratest
- Created documentation and diagrams for the infrastructure architecture

Kubernetes Learning Cluster

github.com/johndoe/k8s-homelab

- Built a home Kubernetes cluster using Raspberry Pi devices
- Deployed various applications and services to gain hands-on experience
- Documented the setup process and challenges on a technical blog

EDUCATION

Bachelor of Science in Computer Science

University of Technology | Graduated: May 2023
